

TERMS OF SERVICE

A few house rules for a very flippy seal world.

Last updated: October 16, 2026 | cdsu.xyz

READ BEFORE TOUCHING THE FROZEN GLASS. Flippy Seal Units is a meme and interactive character project. The seal is cute. Blockchains are not.

01 Welcome to Flippy Seal Units

By using cdsu.xyz, you are entering a website where words and occasionally common sense may face the wrong direction.

These Terms cover cdsu.xyz and its Flippy Seal Units experiences, including the frost intro, normal and flipped views, the message flipper, Mirror Sprint, the leaderboard, shared chat, collectibles, social-sharing buttons and any future token-related pages or links.

Use the Site only if you can legally do so where you are. External wallets, X, launch platforms, explorers and trading venues have their own rules. A seal cannot overrule them with a flipper stamp.

02 What Flippy Seal Units Is

Flippy Seal Units is a meme and interactive character-world project featuring seals, winter play, backwards words and community features.

The Site, games, chat, artwork and collectibles are for entertainment, information and community participation. Any future token features must be described accurately when available. No token feature promises a stable value or redemption for dollars or another asset.

There is currently no official contract address published on the Site. Verify any future token details and full contract address through cdsu.xyz after deployment.

03 The Fun Buttons

Message flipper

Type something normal. Make it beautifully unreadable. Text is intended to be processed locally and not stored merely because you typed it.

Mirror Sprint

You get 30 seconds to decode backwards words. Scores may be checked, rate-limited or removed if a robot, script or suspiciously caffeinated walrus appears to be playing for you.

Leaderboard and nicknames

If you submit a nickname, score or optional X handle for a public feature, expect it to be visible. Do not put secrets, seed phrases, private keys, passwords or sensitive personal information in public fields.

Shared chat and collectibles

Chat messages are public community content. Keep it lawful, do not impersonate people and do not phish anyone. If you leave an email for collectible availability, we use it to contact you when figures become available; the email is not displayed publicly.

04 Do Not Make the Seal Do Incident Response

You must not use the Site to:

- hack, probe, overload, bypass rate limits or interfere with the Site or its infrastructure;
- fake game scores, user counts, engagement or community activity with bots, scripts or multi-account abuse;
- coordinate wash trading, fake volume, deceptive promotion, market manipulation, fraud or other unlawful conduct;
- impersonate Flippy Seal Units, another person or an official support account;
- spread malware, phishing links, spam or unlawful content; or
- ask for, steal or collect another person's seed phrase, private key, password or authentication information.

05 Future Token Features: Keep Your Flippers Inside the Vehicle

If a project token is deployed, blockchain transactions can be irreversible. Wallets, smart contracts, launch platforms, liquidity pools, RPC providers and other infrastructure can fail, contain bugs or behave in ways nobody enjoys.

Token price can move violently, liquidity can disappear, displayed market capitalization is not cash in a box, and a token can fall to little or no value. Slippage, taxes or fees may apply depending on the final on-chain and platform configuration. Check the transaction before you sign it.

Ignore copycat contracts. Any future official contract address should be verified in full through cdsu.xyz. The project will not intentionally publish a reversed contract address.

Holding any future project token does not by itself make you an owner of the website, project, characters, artwork or project assets, and does not guarantee any benefit, price, liquidity or future feature.

06 Your Posts, Our Iceberg

You keep the rights you otherwise have in content you post. By intentionally submitting content to a public Flippy Seal Units feature, you give the project a non-exclusive, worldwide, royalty-free permission to host, display, format, transmit and moderate that content as needed to run the feature.

Flippy Seal Units branding, original artwork, characters, site graphics and original software are protected to the extent applicable law says they are. Memes are encouraged. Pretending to be the official project is not.

07 Third Parties: Other People Have Buttons Too

The Site may open or link to X, wallets, explorers, launch platforms and trading venues. Flippy Seal Units does not control those services. Verify where you are going before connecting a wallet or signing anything. Their availability, fees, security, privacy practices and terms apply to their services.

References to third parties are descriptive and do not mean sponsorship, partnership or endorsement unless the relevant third party says so.

08 The Website May Occasionally Become More Derpy

The Site is experimental. Features can break, move, disappear, return, freeze, unfreeze or be redesigned. We may moderate public content or scores for security, abuse prevention or operation of the Site.

To the maximum extent permitted by law, the Site and its features are provided as-is and as-available. No one can promise uninterrupted service, perfect accuracy, perfect security or eternal uptime - especially not a seal.

09 Liability, Updates and Official Information

To the maximum extent permitted by law, the Flippy Seal Units project, contributors and service providers are not responsible for indirect, incidental, special, consequential or similar losses arising from use of the Site, third-party services or blockchain activity. Nothing here excludes liability that cannot lawfully be excluded.

These Terms can change as the Site changes. Official project information lives at cdsu.xyz and through the channels linked there. Never send seed phrases or private keys to anyone claiming to represent the project.

NO MAGIC LEGAL FORCE

This page is part of a meme project and is written in plain language for information and house-rule purposes. It is not legal advice, a legal opinion, a prospectus, or a magic shield. The project does not claim that a sentence on this page can erase rights, duties, or rules that apply under mandatory law or third-party terms.
